

RESPONSIBLE CARE POLICY

CETEX PETROCHEMICALS LIMITED considers the safety, health and security of the public, its employees, contractors, customers and the protection of the environment to be of primary importance in the conduct of its business. We will meet all applicable laws, regulations, permits and internal requirements. Sustainability is a core element of our strategy and we are committed to strengthen the positive impact of our business to the community.

Continual improvement in our Environmental, Safety, Health and Security performance will be achieved with the commitment of every employee to:

- ❖ Operate our business according to the guiding principles of Responsible Care.
- ❖ Work with customers, carriers, suppliers, distributors and contractors to foster the safe and secure use, transport and disposal of chemicals and provide hazard and risk information that can be accessed and applied in their operations and products.
- ❖ Promote a culture throughout all levels of our organizations to continually design, develop and operate by managing the process safety risks effectively.
- ❖ Prioritize pollution prevention, waste minimization, energy conservation and optimal use of natural resources during every stage of the product life cycle and maintain the facility in line with the design.
- ❖ Make continual progress towards our goal of no accidents, injuries or harm to human health and the environment from our products and operations.
- ❖ Implement management systems which integrate environmental, safety, health and security (ESHS) considerations into our daily business practices.
- ❖ Communicate our environmental, safety, health and security activities with interested parties.
- ❖ Participate with government agencies, the public, interested groups and industry associations in the development of reasonable and scientifically sound laws, security regulations and public policy.
- ❖ Ensure that adequate resources are provided to achieve the objectives of this policy.
